2.3 Practice management experience (AAT Licensed Accountant applicants only)

If you're applying to become an AAT Licensed Accountant, you will need to submit evidence of your practice management experience.

Please reflect on your own practice management experience, based on any self-employed work you have undertaken or your involvement in running a practice as an employee. The main areas you must cover are shown below but this is not an exhaustive list:

- Legal and regulation: *Money Laundering Regulations, Data Protection Act, General Data Protection Regulations, Provision of Services Regulations, Equality Act, Bribery Act*
- Client care: Client engagement and disengagement, procedures, fees and commission, quality control of client work and ownership of books and records.
- IT policy: IT procedures, cyber security and data retention and destruction.
- Quality assurance: Complaints management, resolving ethical conflicts and Professional Indemnity Insurance.
- Strategic planning: Business plans, self-employed guide, and corporate social responsibility.
- Clients' money: Handling client monies and operating a client's bank account
- Staff appraisal and development (if applicable): Managing staff recruitment process, identifying learning and development needs for staff, conducting employee appraisals and employee relations.

If you do not hold relevant experience, please explain how you have developed your practice management capabilities through your continuous professional development (CPD). For example, you may have attended an event or webinar on one of these topics, or read relevant magazine articles and blog posts. Please note that you may not be approved to offer a full range of services if you do not hold sufficient practice management experience.

An example has been given as a guide.

I have experience in being the nominated officer at an accountancy practice. In this role, I was responsible for updating and improving the firm's policies and processes around client due diligence and risk management to ensure compliance with all statutory and regulatory obligations. I was also responsible for internally training existing and new staff on their awareness of the Money Laundering Regulations and for example, the procedure for reporting any suspicious activity. I recently attended an AAT branch event covering recent updates to the Anti Money Laundering legislation.

My role in the accountancy practice also involved ensuring I was compliant with the firm's data security policy; I ensured I password-protected documents, backed-up data on a daily basis and shared information securely.

I am aware of the obligations under the Provisions of Services Act and have followed the process in place for addressing complaints received for the practice. I was responsible for ensuring engagement and disengagement letters were issued to clients as appropriate.

2.4 Online diagnostic tests

You'll need to pass our online Anti Money Laundering and professional ethics tests (with a score of at least 71%), which can be accessed at aat.org.uk/diagnostic-tests. Both tests consist of multiple choice questions and should take about 20 minutes each to complete.

Please tick to confirm that you have successfully passed AAT's diagnostic tests.
